Background
At the time when the Tetra Helix 21/22 were produced, the policy at Tetra Pak was to only include chosen spare parts on the externally produced distribution machines, like the Tetra Helix 21/22.
This SPC-AM is meant as a complement to the SPC-chapter in the TeM that was delivered with the machine. It contains additional spare parts that are missing in the original SPC and which have shown to be needed in the spare parts handling.
